HOGS STEADY-PRODUCTS DROOPING.

The steer that is wanted by our local butchers of late months must not pass beyond the 4c line. Smooth, well-fatted stock, weighing from 1,100 to 1,250, appear to meet the general demands of our home trade, and hence for this line of cattle markets hold up best. It is nevertheless the fact that even this grade has suffered in a measure from the general depression of cattle markets.

The best price obtained for cattle this week at Liberty was \$1.30. Good butcher cattle, from 1,200 to 1,400, sold at prices ranging from \$3.80 to \$4.40. Receipts of calves show no decline. The total this week so far was 1,300 head. The outside price for calves was \$4.00 head. The outside price for calves was \$4.00 and this was only obtained for a few choice ones, which were no index to the market. The general range was \$5.00 to \$4.00, and at these figures markets were 834c to 436c, and at these figures markets were in favor of buyers. Sheep and Lambs.

the week, and markets are stronger to-day than they were on Monday. There was little trouble selling all that came to hand, with \$5 00 as the price of tops.

The situation of trade for hog products bas few elements that are encouraging. Trade shows drooping tendencies all along the line. The trouble all the past season has been that the prices of hogs were too high to furnish any market to prove packers. In almost all provision. margin to pork packers. In almost all provision lines margins are so narrow to the packer that, except on special cuts, he has been working for givry more than profit.

The influences brought to bear upon the market were favorable to both class of traders, but the results favored the bear side. Foreign and domestic markets were weaker. On the other hand, advices from the Northwest report dry weather, and some advices indicate irreparable damage from recent storms in Dakors.

With returns all in it seems that local cattle receipts were 300 head less this week than last and through receipts 240 more. In this week's receipts were ten loads of stockers from Chicago.

There were lew primes in the market. The cattle receipt was little above 1 market. The cattle receipt was little above 1 market. The cattle receipt was little above 1 market. The

Sheep and Lambs.

With receipts more than 8,000 head less than fast week, it would be supposed that markets would be firm. The facts are the reverse. This season's live stock trade is an exception to all rules and experiences. In the face of diminished supplies markets have been slow all the week at a full quarter's reduction from prices of last week.

Prime wethers weighing 120 pounds were sold at \$4.35. The outside price for spring lambs was 7c, and it required a very fancy animal to bring this figure. As with cattle so with sheep and lambs—markets have been depressed all the week.

There were lew primes in the market. The ontside weight was little above 1,400 pounds. Markets were stuggish and at last accounts a number of loads were unsold. There is a difference of opinion among stockmen as to decline. The general view is that prices are off from 15c to 20c from rates of last week. Some dealers hold that fine, smooth butcher stock weighing about 1,200 pounds, hold up to prices of a week ago. People may be met almost any day on Fourth avenue with pockets full of money, looking for "snaps" in real estate. They have no counse-tion with any of the syndicates that are gob-bling property right and left, but act upon their own hook, in the belief that lands and houses afford the best and safest investment for their surplus cash. While this feeling prevails the land trade of Pittsburg can never be lifeless. Business just now is a little sluggish, by comparison with the brisk times of the winter and early spring, but there is considerable inquiry, with a fair amount of sales. That the interest will keep up all summer there is no doubt. The demand for building loans continues un-checked. Money to be thus applied is sufficient to meet the demand.

The improvement of sub-division property is going forward rapidly. This is especially noticeable in the East End, at Shadyside, Roup and Dallas. It is now becoming necessary to have something more to show to intending pur-chasers than naked sod, and sub-dividers have become, in a manner at least, improvers. Side-walks, grades, roads and numerous trees are the common adjuncts to a properly handled bit of outlying ground. This is a good way to at-tract customers and insure quick sales.

ACTIVE AND STRONG.

Stocks on the Jump With the Grangers in the Lead-The Bears Knocked Out-Advances all Along

the Line.
NEW YORK, May 2.—The stock market today was again moderately active and showed a strong front almost throughout, and material advances were made over the list with the Grangers in the lead. There was good buying for both the foreign and domestic account, and the Boston stocks especially were very promi-nent in the upward movement, and although the bears made a powerful demonstration against the list in the forenoon, the impression made upon values was only fractional. The opening was strong after the three days' holi-day, and most stocks showed advances over last Saturday's close of from 1/2 to 3/2 per cent, while Atchison responded to the rise in Boston of the past two days with a gain of 3/2.

The interest in the speculation was centered in the Western stocks and Atchison, Northwestern, Burlington and Rock Island took the lead. The early demand stimulated the list and the opening gains were supplemented by further advance all over the list, and Puliman. which was selling ex-dividend almost recov-ered the dividend in the first hour. The bears, however, resisted the advance with vigor, and however, resisted the advance with vigor, and making their attack more especially upon Union Pacific and Reading, brought the list down fractionally from the best figures.

The statement of the Burlington and Quincy for March showing a gain of nearly \$900,000, again stimulated the buying, and under the lead of Burlington and other Western shares, material gains were made before noon. Even weak spots like Union Pacific and Chicago Gas recovered the losses of the first hour.

In the afternoon the market became less active, but the upward movement met with no set back though, except in the coal stocks, which became the favorites, and especially Lackawanna the gains were for small fractions only. Burlington, Louisville and Nashville and Missouri Pacific, however, were still very prominent. Western Union also came to the front on a rumor that a syndicate had offered to buy Mr. Gould's holdings, and Manhattan, Texas Pacific and the Wabashes were higher in sympathy. The rise culminated toward 2

POTATOES AND APPLES IN DEMAND.

Quiet--- Hay Weaker.

OFFICE OF PITTSBURG DISPATCH, THURSDAY, May 2, 1889. Country Produce-Jobbing Prices. Country Produce—Jobbing Prices.

Apples are moving out more freely, but supplies are coming in large enough to keep prices down. There is a better demand for potatoes than for some time past, but prices fall to turn upward. Eggs are at a standstill but firm. Strawberries come in too freely for demands of trade, and prices are drifting toward the average citizen's pocketbook. Florida string beans and marrow fat peas are in good supply and demand. New cabbage is pienty and slow. Tropical fruits are in good demand and show an upward drift. Creamery butter holds up unusually well for the time of the year. Dealers have been carrying light stocks for a week or two, fearing a break in markets. Stocks are so bare that there is a difficulty meeting demands. Choice grades of new cheese are not in supply up to demand, but it will not be long until the difficulty will correct itself, as quality is steadily improving.
